THE MORNINGSIDE LEADERSHIP SYMPOSIUM

Becoming the Best Leader in Our Multicultural Organizations

The Morningside Leadership Symposium brings you together with staff in communications, HR, program management, and operations to learn to **nurture diversity, inclusion, and highly-effective team dynamics at work.**

WHAT IS THE SYMPOSIUM?

An interactive, thought-provoking day of professional development designed to help managers address tough diversity and inclusion, leadership, and culture questions head-on.

IS THIS RIGHT FOR YOU?

- Do you feel challenged by the divergence of work styles and expectations found within and across your organization?
- Are you missing opportunities to be valued and recognized as a leader within your organization?
- Is uncertainly or a lack of confidence about diversity and inclusion issues impacting your work week?
- Are there ways to better respond and cultivate relationships with students, customers, and staff members?
- Do you want to enrich your workplace culture?

WHAT NONPROFIT STAFF ARE SAYING

"I found this program to be excellent for gaining comfort in the language of diversity, equity, and inclusion. I was able to work with the facilitators and the rest of our group to assess current challenges, create an action plan and immediately begin working toward a more inclusive work environment. I highly recommend this training to anyone passionate about creating healthy, diverse, and inclusive teams."
